PROGRAM OVERVIEW

Compliance with the Sarbanes-Oxley Act (SOX) is a **fundamental pillar of corporate accountability, internal control, and financial transparency in publicly traded companies**. Introduced in response to corporate scandals like Enron and WorldCom, SOX has redefined governance standards and placed a renewed emphasis on accurate financial reporting, management responsibility, and independent oversight. A recent report by the Financial Executives International (FEI) indicates that companies that maintain strong SOX internal controls experience up to 50% fewer instances of financial misstatement compared to those with weak controls.

This Certified Sarbanes-Oxley Professional (CSOP™) program is designed to empower professionals with the knowledge and skills necessary to master Sarbanes-Oxley compliance policies and requirements. Through this program, participants will gain a comprehensive understanding of SOX's key provisions, including the latest updates and critical sections of the Act, and learn how to develop a SOX compliant program that ensures integrity and accountability across their organization's internal control, financial reporting, and risk management systems. Utilizing the COSO Framework, attendees will also gain the ability to identify internal control deficiencies within their organization, and implement a robust internal control framework that guarantees overall compliance with the SOX act.

In addition, participants will master the key elements of the SOX auditing process and learn how to ensure financial statements are fully compliant with the SOX act. This program will cover all the documentation required for a SOX program, including the formats, flowcharts, and risk matrix needed to ensure compliance. You will also gain a strong understanding on ethical considerations, corporate governance, and the role of the board of directors in ensuring SOX compliance.

Upon successful completion of the program and passing the Chartered exam, you will earn the **Certified Sarbanes-Oxley Professional (CSOP™)** designation. This globally recognized credential, awarded by the **Chartered Institute of Professional Certifications**, validates your expertise in building and managing SOX-compliant frameworks. The designation carries lifelong validity and is independently accredited by CPD, certifying its alignment with Continuing Professional Development standards.
