Date

Dear {Manager},

I would like to enroll Certified Kubernetes Leader (CKL^{TM}) program to further enhance my Kubernetes management skills and I would like to gain your approval to attend this program. By attending this accredited program, it will strengthen my overall ability to install, manage and configure Kubernetes platform which can help to orchestrate our organization's computing, networking and storage infrastructure.

Led by Niranjan Pandey, an award winning Cloud Technologist expert, this program will also help me to master the necessary skills, knowledge, and competency to perform Kubernetes administrator tasks which can help the organization's DevOps implementation by scaling software services needs virtually. The program will cover key Kubernetes configuration techniques that allow the IT team to improve containers management through modularity and effectively deploy and update software at scale. Some of the key skills this program will bring include:

- Kubernetes Administration
- Kubernetes Installation
- Kubernetes Configuration
- Role-based Access Control
- Highly Available Clusters
- Kubernetes Service Management
- Kubernetes Networking Model

I believe these skillsets will prove to me invaluable to me and you can be assured that after attending this online program, I will be able to contribute even further to our organization's process workflow through Kubernetes environment. In addition, this program will allow me to earn the Certified Kubernetes Leader (CKL^{TM}) designation which I believe will significantly enhance our performance and team credibility.

I look forward to gaining your approval to attend this online program.

Sincerely,
Your Name
