# PROGRAM OVERVIEW

Sustainable procurement plays a critical role in environmental and social stewardship, with tangible benefits such as a **potential 50% reduction in carbon emissions from procurement practices**, as identified by the UNEP. Moreover, Accenture's findings reveal that **94% of CEOs acknowledge sustainability as indispensable for long-term success**, underscoring its pivotal role in shaping corporate strategies and ensuring a sustainable future.

This certified program will provide you with the comprehensive knowledge and practical skills needed to implement sustainable procurement practices in your organization. Through a detailed exploration of sustainable procurement principles, aligned with the ISO20400 guidelines, you will **gain a thorough understanding of the procurement lifecycle, from policy development to supplier evaluation and beyond**. Throughout the program, you will learn how to craft and align procurement policies with organizational goals, while ensuring compliance with international environmental standards. You will also master the art of stakeholder engagement and effective communication strategies to foster collaborative partnerships and drive sustainability initiatives forward.

# PROGRAM OVERVIEW

By focusing on the **selection and evaluation of suppliers, legal and ethical considerations, and the specification of sustainable products and services**, this program will empower you to align supplier selection with organizational sustainability goals. You will gain insights into **performing life cycle assessments, understanding eco-labeling, and implementing circular economy principles to extend product lifecycles and promote recycling and reuse**. Additionally, you will learn to navigate the complexities of sustainable procurement, from identifying risks and opportunities to reporting progress and ensuring continuous improvement.

By the end of the program, you will be equipped with the expertise to integrate sustainability into every aspect of the procurement process, aligning your organization's procurement practices with global sustainability standards.

Upon successful completion of this program, you will be awarded the **Certified Sustainable Procurement Manager (CSP™)** designation, demonstrating your expertise in developing a sustainable procurement framework that adheres to the principles of ISO 20400. This credential will set you apart as an authority in developing impactful sustainable procurement framework, bolster your professional credibility and expand your career opportunities within the industry.

# YOUR FACULTY DIRECTOR

## Dr. Mauro Fracarolli Nunes

Experienced Associate Professor and Head of the Strategic Supply Chain Management & Sustainability

Faculty Leader for CSP Australia and Asia Pacific Programs

Dr. Mauro Fracarolli Nunes is an esteemed sustainability and supply chain management expert with over 15 years of experience in consulting and academic field. He is currently the **Associate Professor and Head of the Strategic Supply Chain Management & Sustainability M.Sc. program at EDC Paris Business School**, exemplifies excellence in academia and industry alike. His profound commitment to sustainability and sustainable supply chain management is reflected in his extensive body of work, including numerous research articles, books, book chapters, and case studies. Dr. Mauro has made **significant contributions to the field through his publications with Palgrave MacMillan and Routledge**, delving into critical issues such as deforestation, fossil fuel usage, CO2 emissions, modern slavery, child labor, and the transformative impact of emerging technologies.

Prior to his illustrious academic career, he has spent a decade of invaluable experience in multinational corporations across the food & beverage, telecommunications, and pharmaceutical sectors. Further demonstrating his expertise, Dr. Mauro provided his insights as an independent consultant for a green energy startup, where he focused on managing sustainability aspects within its supply chain. His multifaceted experience **bridges the gap between theoretical research and practical application, making him a revered figure in his field.**

# YOUR FACULTY DIRECTOR

## Natalia Lopez

### Seasoned Sustainable Supply Chain Management and Circular Economy Expert

Faculty Leader for CSP Europe Programs

Natalia Lopez is a seasoned expert with extensive experience in circular economy and sustainable supply chain management. As a Senior Manager at PwC Sweden and a sustainability consultant, she **plays a pivotal role in designing circularity solutions and liaising with internal and external stakeholders**. Her expertise spans risk management, circularity, sustainability strategy setting, and developing capacity-building programs across diverse industries, including manufacturing, electronics, transportation, entertainment, and fashion.

With a global perspective honed through over a decade of work in Southeast Asia, Europe, and Latin America, Natalia brings a wealth of knowledge in sustainability and management consulting. **Recognized as a Circular Economy Pioneer by the Ellen MacArthur Foundation**, she is frequently invited to speak on CSR and ESG-related topics at Swedish and EU levels. Additionally, Natalia is an **active member and speaker for Women in Climate Sweden**, further contributing to her extensive expertise in areas such as sustainability reporting frameworks, sustainable business model creation, risk management, and sustainable procurement.
